She also explained that the beginning half of her budget would not be enough to cover the August and November elections, she will be going to the Excise Board to request a temporary transfer but wanted to get the Commissioner's approval first. Gary Bray stated that when he first came into office the road money was re-divided as follows: District 1 - 32%, District 2 - 32%, and District 3 - 36%. At that time, he was unaware of how many road miles that District 3 had. Commissioner Bray stated that out of the 1,492 total road miles in Grady County each district has the following: District 1 – 343.67, District 2 – 510.58, and District 3 – 638.18. Which break down as follows: Each district has the following miles of asphalt roads: District 1 – 155, District 2 – 215, and District 3 – 410. The following miles of gravel roads: District 1 – 184, District 2 – 277, and District 3 – 205. District 3 begins at the Grady – Stephens County line and ends in Chickasha on Florida Avenue where the tag agency is. District 3 has 294 more miles than District 1 and 194 more miles than District 2. District 3 has 255 more asphalt roads than District 1 and 194 more asphalt roads than District 2. Commissioner Bray stated that he received a print out from ODOT on June 19th that gave an estimate of these statistics. Commissioner Bray had his road Foreman grid out his district and check on the road miles. They found that their figure was within 6 miles of what ODOT had given them. Commissioner Bray said that he felt that the money should be re-divided. Zachary Davis asked how he thought it should be divided. Commissioner Bray stated he felt it should be based off the road miles and came up with the following division: District 1 – 23%, District 2 – 34%, and District 3 – 43%. Commissioner Bray asked if this division was fair. Commissioner Davis stated that it was not, he stated that his roads wear out faster as he has a more concentrated population in a smaller area. Commissioner Davis stated that he wanted to make his position very clear. As a representative of District 1 citizens, he was not interested in giving up one penny. Commissioner Davis stated that he

agreed to give up 1% when he came into office because he felt like District 2 deserved more than the 30%, they were getting. Commissioner Davis stated that the money and population had not changed so why did they need to re-divide the money again. Commissioner Davis stated that unless they hired an engineering firm to conduct studies on the cost of each district's road repair and how often they need repaired, then any division they came up with would only be an opinion. Commissioner Davis then asked who put the item on the agenda. Commissioner Bray stated his secretary, Cavin Newman put it on the agenda. Commissioner Davis stated that currently District 3 has \$5.7 million dollars unencumbered in his accounts, why would he need to take money from District 1 citizens? Commissioner Bray stated that he is managing his money, and currently has 40 miles of road tore up ready to overlay and the cost to overlay is very expensive. Commissioner Davis asked why he was not chipping and sealing instead. Commissioner Bray replied they were chipping and sealing roads as well. Commissioner Davis stated that they have 2,500 to 3,500 cars traveling per day traveling their roads with one road having 7,000 cars a day. Commissioner Davis asked if Commissioner Bray had any data of how many cars travel his roads per day. Commissioner Bray stated that he did not. Commissioner Davis stated that the roads he maintains are unincorporated roads and therefore get more wear and tear on them. Commissioner Bray stated that his roads get traveled a lot as well and stated the Cox City area has increased in size. Commissioner Davis asked Commissioner Painter and Commissioner Bray if they discussed this agenda item outside of the meeting. Commissioner Painter and Commissioner Bray denied this happened. Commissioner Davis stated that he has heard about this re-division of money since early April, he stated that he heard it from both District 2 and District 3 employees. All of which have stated Gary Bray and Kirk Painter are talking about re-dividing the money, and this has not been an agenda item this year. Commissioner Davis continued to say that he even heard it was going to happen after the June 18th election. Last week he was told it was going to be added to the June 24th agenda. Commissioner Davis stated that in April, he himself overheard Commissioner Painter state "Zac's not going to like our next stunt, we are going to re-divide the money after the election." Commissioner Davis said that he was not sure who Commissioner Painter was talking to as he was standing around the corner but it was a direct quote. Commissioner Davis then stated he has had citizens tell him that Commissioner Painter & Commissioner Bray have been seen eating together at several places. Commissioner Davis stated that he seen them at ACCO together at tables by their selves with no one around. Commissioner Davis has also personally seen them together at food establishments. Commissioner Davis asked again if they discussed this outside of this meeting. Both Commissioner Painter and Commissioner Bray again denied any conversations outside of the meeting regarding County business. Gary Bray stated he has spoken to his employees about this item, but not Commissioner Painter. Commissioner Painter stated that it was not a violation for them to eat together if they did not discuss County business. Commissioner Davis asked how they explain the fact that he had several people tell him the exact same thing about the division of the road money and even gave him the date a week ago, and now it is happening exactly as he was told. Commissioner Davis referred to the fact that Commissioner Painter was overheard stating it would happen after the election, and Commissioner Bray had it put on the agenda after the election. Commissioner Davis asked how it was possible if it was not discussed outside of the meeting. Commissioner Davis stated that the citizens of Grady County deserved to know the answer to this, however; the answer was simple, it was a violation of the Open Meetings Act. Commissioner Davis stated that Commissioner Painter and Commissioner Bray continually make a mockery of the Open Meetings Act, and there have been many instances since January that has made it clear the agenda items were rehearsed between the two of them. Commissioner Davis stated this is dangerous for our County, two Commissioners are making decisions for the 60,000 citizens in our County behind closed doors. Charles Sifers, Assistant District Attorney asked if he could have the floor. Mr. Sifers stated that an allegation of a crime was being committed,

and there has been enough evidence presented to do an investigation. Mr. Sifers continued to say that the agenda item to change the division of road money needed to be set aside until the investigation is over. Mr. Sifers stated that there might be a need to address the division of road money, but at this time he urged the Board as their legal-council to take no action. Commissioner Painter stated that two Commissioners can meet outside of an open meeting if no County business is discussed. Mr. Sifers stated that perception is reality, he stated that he has already advised Commissioner Painter in the past not to meet outside of an open meeting, even if it is just for lunch. Mr. Sifers said however, your statement is technically correct, his legal advice is to not do it. Commissioner Painter stated that Commissioner Bray and himself were being discriminated against for being friends. Mr. Sifers stated that as your lawyer, I just advised you not to do it. Commissioner Painter stated that he has never seen the figures presented today by Commissioner Bray, when he came into office himself, he was getting the least amount. For years the other two Commissioner's at the time would vote to the division that favored their districts. Commissioner Painter was told that they would not change the division to help District 2. Mr. Sifers stated again, that the Board needed to take no action.

Kirk Painter stated no action on the division of road money for Districts 1, 2, and 3.
